# HOOD MUSEUM OF ART

MEMBERSHIP 2017

## AN INVITATION TO JOIN

Thirty years ago, the Hood Museum of Art first opened to the public, and in summer 2016 construction began on our expanded and renovated building. I am pleased to tell you that the enterprise of the museum will continue during the interval of our construction and reinstallation. A key aspect of the Hood's four-point plan during this period will be an ambitious series of exhibitions featuring contemporary artists from around the world at our new Hood Downtown exhibition space on Main Street in Hanover. It is truly a special time in the evolution of the Hood, as we embark on this most challenging and exciting chapter of our story.

I invite you to be an integral part of that story by becoming a member today.

The Hood Museum of Art is committed to engaging all of our visitors with the joy of discovery and inspiration that comes from looking at and learning about works of art. We are able to provide these valuable opportunities free of charge to everyone, every day, because of the generosity and leadership of our members. Please consider joining and take advantage of a wide array of exclusive behind-the-scenes programming and special events and trips that are offered with sincere thanks for your support.

#### Bahar Behbahani: Let the Garden Eram Flourish

January 5–March 12, 2017

Presents a suite of paintings, installations, and video from Iranian-born, Brooklyn-based Bahar Behbahani's acclaimed *Persian Gardens*, an ongoing

#### Ingo Günther: World Processor

March 24–June 18, 2017

Günther has been mapping data onto a sea of illuminated globes in his internationally renowned *World Processor* series for fifteen years. The artist's

envisioning of complex data on physically identical but content-specific globes foregrounds scientific, economic, and historical information to create multilayered accounts of the relationship between humans and the planet.
